Retropost 11 1/2" Trim Poster System Specifications

Irvin Steel's Retropost™ one-sheet poster installation system

Eco-friendly vinyl substrates, say hello to your new best friend, Retropost.™ Retropost™ is the latest ally in outdoor advertising's push to "go green." Our system eliminates the need for glue and paper, allowing you to post recyclable polyethylene (PE) substrates with ease.

The Retropost™ System is the simplest and most reliable system available. Retropost™ requires only one installer to complete and is quicker and less cumbersome than other systems. No cables, no pulleys, no hassles.

Plus, Retropost™ works with your existing rods and trim. It is constructed of stainless steel parts and works with any style 1 1/2" trim system.

Primary features:

- 🌿 No cables
- 🌿 Works with any style 1 1/2" trim
- 🌿 Light-weight and easy to use
- 🌿 Requires only one installer
- 🌿 Uses standard gripper rods
- 🌿 No need to remove existing trim
- 🌿 Brackets are hidden behind trim and rods are hidden by vinyl
- 🌿 Constructed of galvanized and stainless steel parts
- 🌿 Uses lightweight fiberglass gripper rods
- 🌿 Eliminates unsightly poster flagging and tearing seen with traditional glue-posting
- 🌿 Quick and simple to install

A secondary Retropost™ system is also available for the FX6 round trim system. Please contact your Irvin Steel representative for more information.
